OBJECTIVE

I am committed to learning and self-development so that I can consistently achieve better results. I always try to use a creative approach to solve the problems. Honest and trustworthy.

SKILLS

Technical Skills

- Excel (VLOOKUP, HLOOKUP, PIVOT Tables)
- Python
- SQL (Basic Queries)
- Statistics (Descriptive, Predictive, Prescriptive, ANOVA, Z-Score, C.I)
- Probability (Distribution, Univariate, Bivariate, Multivariate)
- Machine Learning (Data-Preprocessing, EDA, Feature Engineering)
- Google Sheets (VLOOKUP, HLOOKUP, Charts)
- TensorFlow, Keras (intermediate)

Other-Technical skills

- Leaderships skills
- Teaching Skills
- Team Management

EDUCATION

B.Tech- Khalsa College of Engineering and technology, Amritsar

2016- 2020

Computer science Engineering

PROJECTS

1. Data stats: Data, anyone can easily generate statistical reports from the dataset in a just few clicks. It will give an initial idea about the nature of the dataset in which they have to work on. These early stats could help them to make good decisions in early stages.
2. Cars Sales: Performed Data Pre-processing EDA and Analytics on second hand car sales data.
